

# How to promote a Family Service

As we travel across the United States ministering to families, we have learned that certain things work better than others in promoting a family event. Because the concept of family ministry is fairly new to the body of Christ, many church people have no idea what to expect. We have listed a few things that work and don't work when promoting a family service to your church and community.

1. It's very important that you not advertise this as a kid's event or us as a children's evangelist. If parents get the idea this is for kids, they will drop off their kids and leave. It's very important that the **lead pastor** promote the event as a family event from the pulpit. He must let the people know this is a time for the entire family to enjoy church together instead of being separated. The event is for children, teens, and adults, this is a time for parents to bring their kids to a service that everyone can enjoy together. This is a time for grandparents to bring their grandchildren to church. This is a time for families to invite other families in their communities to church or adopt the kids next door for a day.

2. The messages will be simple enough for a child to understand but relative to all ages.

3. This is a time for entire families to learn together, get closer to God together, have fun together, and experience God and church together.

4. Too many times we separate children, teens, and adults during church. This is a time that everyone can be together in church, enjoy, and learn together.

5. This will be a fast paced Multi media event for the entire family.

6. In order to get the parents and grandparents to buy into this concept of a family service. It must be promoted correctly from the Lead Pastor.

# Things you need to know about Jubilee Gang Family Events.

1. Because of our Muti Media presentations and Jerry's teaching style, Jubilee Gang Family Events are able to reach multi-generational groups of people.
2. Everyone in attendance will enjoy and learn bible truths in a fresh and exciting way.
3. Adults will not feel spoken down to or out of place.
4. Adults, children, and teens will be encouraged to participate in the service, not just observe.
5. Many times adults leave our family events remarking on how much they got out of the service. Some have said they got as much out of the message as their children did.
